DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority under 35
 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No.
 09/555,764, filed on 4/5/02.

Information Disclosure Statement

2. The IDS, filed 7/10/03, has been considered in full.

Drawings

3. The drawings, as originally filed, are acceptable as formal.

Specification

4. The first sentence of the specification needs to be updated for 35 USC 120.

Claim Objections

5. Claim 9 is objected to because of the following informalities:

The following should be re-worded for clarity:

Claims 7 and 8, "a chute for mowed lawn".

Claim 9, "disposed in one of front and rear".

Claim 9, "disposed in the other of front and rear".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 7-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which

applicant regards as the invention.

Claims 7 and 8, "a chute for mowed lawn" is indefinite. It is not clear how a chute could be for a lawn.

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Trefz et al. (5,138,825).

Trefz et al. shows a riding lawn mower (Figure 5) where a belt transmission (98, 100)

has a chute (92) between the transmission and the reservoir (96).

Note that Applicant has not specifically stated what constitutes a reservoir.

Conclusion

Art Unit: 3682

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Evans et al.; Busboom et al.; Iida et al.; Togoshi et al.; Thornburg show cutting apparatus which utilize belt type transmissions either to drive the wheels or the blades.

11. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
